A junior frontend developer with hands-on experience in frontend development using Vue.js, HTML, CSS, Tailwind CSS, Bootstrap, and JavaScript. Proven ability to build and deliver web applications through real life projects and professional roles. Eager to contribute my frontend skills and a collaborative mindset to a growth-oriented development team.

WORK EXPERIENCE/WORK HISTORY

Advocado Interactive Solution Sdn. Bhd. – WFO, full-time *job* Sept 2025 – Mar 2026

Frontend Developer

Developed and maintained responsive frontend UI layout for a high-traffic online sports platform, contributing to key features within a collaborative development team using Vue.js, CSS, Bootstrap, and JavaScript.

- Architected and developed a Tournaments page featuring card-based layouts with timeline and column views, incorporating pagination and full mobile responsiveness using Vue.js Bootstrap, and CSS.
- Built a Players page,
- Built the user account interfaces, delivering consistent and user-friendly UI in the platform.
- Develop a Live page for showing Upcoming Live and Ongoing Live stream videos into frontend interfaces, using placeholder thumbnails, to deliver a frontend UI layout that are ready for backend team to do integration.
- Implemented Internationalisation (i18n) across the platform to support 3 languages (Mandarin, English, and Malay), enabling a localized experience for a diverse regional user base.

Outlier (Scale AI) – *remote, freelance job* Jan 2025 – June 2025

AI Prompt Writer/AI Trainer

Validated and refined AI model responses to enhance accuracy, developing technical prompts for diverse scenarios to support client-facing applications.

- Reviewed and improved 50+ weekly AI responses against rubrics, providing detailed feedback that increased model relevance.
- Created and tested generic and coding-related prompts (e.g., Python, JavaScript scenarios) to refine AI model performance, improving response relevance for technical use cases.

- Analyzed feedback via Outlier's system to ensure compliance, refining validation techniques and contributing to project success.
- Applied analytical skills to assess prompt quality, contributing to optimized AI model performance and aligning with project objectives.

Roche Services & Solutions (RSS) APAC – *Subang Jaya, Selangor* June 2023 – Oct 2023

Internship (IT Service Desk)

Provided first-level technical support for software issues across O365, Windows, and Google environments, resolving user queries efficiently.

- Collaborated with APAC teams using ServiceNow system and Google Chat, strengthening documentation skill and remote problem-solving skill.
- Resolved 40+ weekly user queries from China regional offices on troubleshooting software issues, managing user accounts and access permissions, remotely accessing users' device to install and configure software (Bomgar and PowerShell).
- Escalated complex issues to senior teams while keeping users informed, maintaining high satisfaction and productivity levels.
- Contributed to the Knowledge Database by posting troubleshooting articles and facilitated knowledge-sharing forums, enhancing team and user support processes.

EDUCATION

Universiti Tunku Abdul Rahman - *Kampar, Perak* Oct 2021 – June 2025

Bachelor of Information Systems (Hons) Information Systems Engineering

PROFESSIONAL SKILLS

- **Microsoft Office Suites:** Word, PowerPoint, Excel, Outlook, Access
- **Diagramming Tools:** Draw.io, Lucidchart, Canva, Figma
- **Programming Languages:** HTML, CSS, PHP, JavaScript, Python, Java, C#
- **Frameworks:** Vue.js, Tailwind CSS, Bootstrap, Node.js, Express.js, React
- **Databases:** SQL (MySQL, Oracle, PostgreSQL, MS SQL), NoSQL (MongoDB)
- **Technical Skills:** Git, GitHub, Web Development, RESTful API, i18n, Remote Access (Bomgar), PowerShell, Prompt Engineering, Microsoft 365, ServiceNow ticketing system
- **Operating System Environments:** Windows, Android, MacOS, UNIX/Linux

PROJECTS

Final Year Project June 2024 – May 2025

Online UTAR Appointment Management System

- Individually developed a web-based system using HTML, Tailwind CSS, PHP, JavaScript, MySQL, and XAMPP, enabling UTAR students and lecturers to schedule and manage appointments efficiently.
- Troubleshot and resolved system issues, ensuring secure and reliable access for multiple simulated users, enhancing user experience and system performance.
- Used UML Modelling tools to illustrate diagrams, showed the visual representation of the system design, architecture, and database design.
- Implemented FullCalendar (JavaScript Library) for time slot visualisation, displaying events on a daily, weekly, and monthly view to the users. Users could click on an available time slot to book an appointment.
- Utilized XAMPP and Agile SDLC methodology to ensure iterative development, testing, and deployment, achieving a 30% reduction in appointment scheduling time during functionality testing.
- Deployed the system with XAMPP, exploring manual deployment processes as a foundation for CI/CD pipelines. Use Git workflows to backup the codebase on GitHub repository.

Group Project Oct 2023 – Dec 2023

Online Library Management System

- Led a four-member team (with Agile methodologies) to develop a web-based library management system using PHP, MySQL, HTML, CSS, and JavaScript, delivering a functional platform for book and user management.
- Used UML Modelling tools to illustrate diagrams, showed the visual representation of the system design, architecture, and database design.
- Designed and implemented the user module, enabling account management, role-based access control, and privilege assignment through secure MySQL queries and PHP authentication logic.
- Coordinated task distribution, reviewed progress, and ensured robust database design, optimizing SQL queries to enhance system performance.
- Conducted system testing and delivered presentations, ensuring reliable operations and stakeholder satisfaction.

CERTIFICATIONS AND TRAINING

- **SQL (Basic) Certificate - HackerRank, (2025 - Present)**
- **MUET Band 4.0 – Majlis Peperiksaan Malaysia, (2025 - 2029)**

LANGUAGE COMPETENCIES

- **Mandarin:** Native Language
- **English:** Professional (MUET Band 4.0)

- **Malay:** Intermediate
